Armen Kirakosyan  
MD, MBA, FACOG,  
URPS, FRCSC, FACS

At General Physician, PC Urogynecology we offer the experience and compassion our patients want and need. We provide a wide variety of innovative treatments and solutions to problems that affect a woman's health.

Urogynecology is a sub-specialty of obstetrics and gynecology dedicated to the treatment of pelvic floor disorders, such as problems with tissue relaxation (prolapse), urinary, bowel and sexual dysfunction. It involves the diagnosis and treatment of the following conditions:

- Urinary Incontinence, Frequency & Urgency
- Overactive Bladder
- Pelvic Organ Prolapse
- Vaginal Dryness
- Vaginal Mesh Complications
- Pelvic/Vaginal Pain
- Painful Bladder Syndrome
