

We Get You Back to Living Life.

*Focusing on orthopedic spine
surgery and spinal disorders*

Dr. Edward Simmons

Dedicated to treating a wide variety of spine disorders.

Dr. Edward Simmons and his team strive to provide comprehensive care for patients with spinal disorders in a compassionate and thoughtful manner.

He treats a wide variety of spinal disorders including disc herniations, spinal stenosis, scoliosis and kyphosis, spondylolisthesis, fractures, and other spine trauma. Dr. Simmons treats all areas of the spine, including the cervical, thoracic and lumbar regions.

Surgical procedures include:

- Minimally invasive techniques
- Stabilization instrumentation and fusion
- Decompression of nerve impingement
- Correction of spinal deformity
- Artificial disc replacement.
